# AIRNET & AIRPUR SPRAY

## Cleaning treatment and odor eliminator in air conditioning systems.

### DESCRIPTION

AIRNET AIRPUR SPRAY is an easy-to-apply kit that disinfects, cleans and eliminates bad odors from air conditioning in just 2 steps. Eliminates by contact the accumulations of dirt produced by the passage of air, microorganisms, bacteria, fungi, nicotine, dust, etc. and keeps the circuit free of unpleasant odours.

### HOW TO USE

Easy application in 2 steps:

#### AIRNET SPRAY

We turn on the air in cold mode, remove the filters and clean them with the AIRNET SPRAY product, leave the product current for 30 seconds and rinse with water (let them dry). We apply the AIRNET SPRAY product on the evaporated coil until saturation in order to drag the dirt to the condensate tray, and let it act for 15 minutes.

#### AIRPUR SPRAY

Once this time has elapsed, we apply the AIRPUR SPRAY product, repeating the same process applied to the evaporated coil as with the AIRNET SPRAY.

The equipment is disinfected clean and free of bacteria and fungi.

### FORMAT

- REF: 10263001
  - Kit of 2 x 400ml aerosol.
  - Boxes of 6 kits.
  - Complete pallets 78 boxes.

### Warnings

The suggestions and recommendations on the use of our products respond to our best knowledge and understanding at the time of writing this technical sheet. We are not responsible for any possible negligence in its handling. Compliance with all legal provisions, including those existing regarding the protection of industrial property, is exclusively the responsibility of the users of our products.

### PHYSICAL PROPERTIES

APPEARANCE – AEROSOL  
COLOUR – LIGHT GREEN / TRANSLUCENT  
WEIGHT – MIN. 122 G/MAX. 125 G  
MIN. 108 G/MAX. 111 G  
PH 100% – 11/10.5

### QUALITATIVE COMPOSITION

NON-IONIC SURFACTANTS  
CATIONIC SURFACTANTS  
ANTICORROSIVES  
SOLVENTS  
SEQUESTRANTS  
METALLIC OLEATES  
QUATERNARY AMMONIUM SALTS  
ALCOHOL
