

HVAC/R

2023

# **Environmental Sustainability.**

## **Not a destination.**

## **A journey to experience.**

Awarded for the second time as one of the 100 most sustainable Italian companies by Forbes, Errecom renews with the same enthusiasm its commitment to sustainability.

Increase in eco-friendly products in support of a circular economy.  
Replacing plastic packaging with recycled cardboard.  
Use of recycled plastic when the formulation allows it.  
Dematerialisation of technical and information material.

# THE EXCLUSIVE 1000 MIGLIA LINE

## Excellence and Tradition

Errecom is now 1000 Miglia official partner. The same values. The same passion. A full range of excellent products that guarantees maximum efficiency to all air conditioning and refrigeration systems.

[errecom.com](http://errecom.com)

**ERRECOM**<sup>®</sup>  
AIR CONDITIONING & REFRIGERATION CHEMICAL SOLUTIONS

The most beautiful and renowned race in the world, a **symbol of the success of "Made in Italy"** for almost 100 years.

Errecom has signed an **exclusive worldwide partnership** with 1000 Miglia which enhances its offer of chemicals and additives for AC/R maintenance used daily all over the world. The 1000 Miglia brand on the products **gives exclusivity and uniqueness to the service offered by the HVAC/R technician or shop.**

A full range of excellent products that guarantees maximum efficiency to all air conditioning and refrigeration systems.

The same emotions.  
The same passion.

We are proud to announce that Errecom has been selected, thanks to its expertise and know-how, **as the official partner of 1000 Miglia to produce the exclusive AC/R maintenance and cleaning line.**

# ENERGY DEMAND FROM AIR CONDITIONERS WILL TRIPLE BY 2050\*

▣ **Natural gas** in Europe **costs** about **10 times more** than a year ago.

▣ Wholesale **electricity prices** are around **260% higher** than a year ago.\*\*

## How to cope with soaring **energy prices?**

Heat pump and AC/R  
maintenance is the  
answer.

Not just an intervention to solve AC/R system breakdowns: maintenance can also be performed to **prevent problems and maintain the efficiency of the system over time**, reducing its energy consumption and environmental impact.

ERRECOM  
ROAD TO EFFICIENCY

EFFICIENCY?  
IT'S A  
MATTER OF  
CHEMISTRY

# What affects heat pump efficiency?

**To name a few causes: refrigerant leaks, oil fouling, moisture, and dirty coils.**

Air conditioning and refrigeration systems are not only a bunch of mechanical components but are composed of chemical elements too. For the system to work efficiently, it is essential to take care of the refrigerant gas and the refrigeration lubricant over time, avoiding their chemical decay.

Over 20 years of  
experience and  
research in AC/R  
maintenance

## Indoor Air Quality

**People spend 90% of their time indoors**, 2013 WHO Europe Report, US Environmental Protection Agency. Negligence in cleaning A/C systems not only reduces their efficiency but also negatively affects air quality by spreading viruses, bacteria, mould, and allergens. This can be a serious health hazard.

AC/R efficiency:

# focus on maintenance, checkups, and leaks.

Errecom's offer includes:

What is it?

Acid neutraliser additive

How does it work?

It reduces and prevents the formation of acid residues resulting from the natural decomposition of refrigerant gas and refrigeration lubricant

What does it solve/prevent?

It prevents the acid residues from attacking the metal components of the system, causing refrigerant gas leaks and the AC/R compressor breakdown

What is it?

Anti-moisture additive

How does it work?

It surrounds the water molecules circulating in the AC/R system and, by removing them from the refrigeration lubricant, prevents the formation of acidity resulting from the interaction of excess water and lubricant. Working with the filter drier, the additive also slows down its saturation, thus extending its service life

What does it solve/prevent?

It prevents the corrosion caused by moisture

What is it?

Performance enhancer for A/C systems

---

How does it work?

It removes oil fouling from refrigeration lines

---

What does it solve/prevent?

Eliminating oil fouling from the internal walls of the refrigeration lines, the additive restores the original diameter of the pipes, the optimal heat exchange between the refrigerant gas and the refrigeration lines and the efficiency of the system

What is it?

Leak stop additive

---

How does it work?

It detects micro-leaks (up to 0.3 mm) on the metal, plastic and rubber components of the AC/R system by repairing them with mechanical action without reacting to moisture or oxygen (polymer-free formula)

---

What does it solve/prevent?

It repairs and prevents micro-leaks, preventing refrigerant from being spread into the atmosphere

What is it?

Antioxidant and anticorrosive additive

---

How does it work?

It leaves a thin film on the metal components (copper, aluminium, etc.) of the AC/R system protecting them from oxidation and corrosion without interfering with the heat exchange capacity

---

What does it solve/prevent?

It stops and prevents the oxidation and corrosion occurring within the AC/R system, extending the life of metal components

# A broken AC/R compressor or a retrofitting procedure

requires checking on the air conditioning or refrigeration system. In this case of extraordinary maintenance, it is necessary to flush the AC/R system with a specific fluid that will remove:

carbonic and  
hydrofluoric acid

moisture

metal ions  
and oxides

However, these components can remain, in small percentages, free to circulate within the AC/R system causing the compressor to break down.

In addition, even after flushing with nitrogen,

residual flushing fluid

may remain, reducing the oil's viscosity and lubricating capacity.

The solution is

# COMPRESSOR+

Add **Compressor+** to the compressor oil.

Eliminates acidity

Inactivates metal ions and oxides

Eliminates moisture

Restores the oil's lubricating capacity

If not used,  
the life  
of the A/C compressor

may be **drastically shortened**

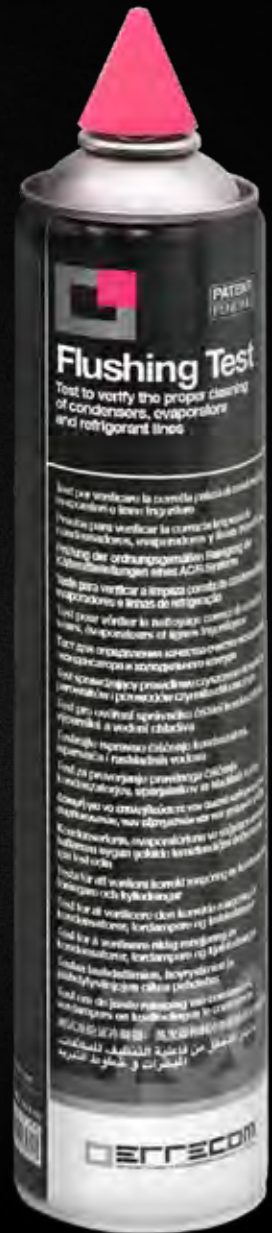

# Flushing Test

When should you flush an AC/R system?

How can you be sure that the system has been flushed correctly?

What is the right amount of flushing fluid to use?

Leaving **contaminants**, such as condensate, acidity, rust, metal filings, dust, and sand free to flow in the **refrigerant lines** can severely damage the components of AC/R systems. Therefore, it is necessary to **remove** them through professional cleaning and flushing procedures. However, until now, this critical operation has been left to the experience and common sense of HVAC/R technicians, without the possibility of testing its success and result. Thanks to our know-how, this is now possible.

**PATENT PENDING**

Test to **verify the proper cleaning of condensers, evaporators, and refrigerant lines**

If the colour **CHANGES**,  
**FLUSH** the system

If the colour  
**DOESN'T CHANGE**,  
**START** the system

Clear and instant result.

Certifies  
**proper flushing**

# Steady

Adjustable Floor Support for AC/R Units

This new A/C support system  
**ensures quick and safe installation**  
of all outdoor units on any surface,  
**including sloping roofs up to 35°**,  
without additional support.

Height  
adjustment:  
16,5 – 25,5 cm

Can be tilted  
up to 35°

360-degree  
rotation

1500 Kg

Universal,  
solid,  
eco-friendly.

**PATENT PENDING**

# PIPE MARKERS AND LABELS

- ▶ Comply with  
ISO 20560 and  
CLP Regulation
  - ▶ Available in  
several languages
  - ▶ Customisable  
on request
- 

# DISPLAY STAND

CUSTOM-MADE MODULAR  
METAL DISPLAY STAND

according  
to customer  
requirements.

Errecom's graphic layout  
has always been extremely  
recognisable and distinctive  
and now it will be even more:  
the contrast between the black  
display stand and the coloured  
labels increases product  
visibility and brand recognition.

# SCENT DIFFUSION TECHNOLOGY

## Heaven

Heaven is a scent diffuser designed to be connected to an existing HVAC system to provide powerful, constant, and efficient scenting. It can be programmed by the display or remotely via Wi-Fi. It can be easily installed in the false ceiling or directly in the AHU. Coverage can be up to 4000 SQM.

## Extreme Ultra

### Leak Stop

- Permanently repairs leaks up to 0.3 mm on rubber and metal components of AC/R systems.
- Polymer-free: does not react with moisture and oxygen. Does not clog AC/R systems' components.
- Safe for metal and rubber components of AC/R systems.
- Visible when exposed to any UV lamp.
- Non-flammable, non-irritating, safe for the operator.
- Significantly reduces compressor noise.
- Compatible with all refrigeration lubricants.
- Compatible with all refrigerant gases, including CFC, HFC, HCFC, R32 and HFO, except R717 (ammonia).
- The professional choice for preventive maintenance.

Art.-Nr.	Adapters included	€			
TR1163.AL.01.S2	No adapters	-	30	5400	5400

#### Dosage:

1 cartridge (6 mL - 0.2 fl oz) for systems up to 21 kW or 700 mL (23.6 fl oz) of compressor oil.

6 mL

## Cool-Shot Ultra

### Performance Enhancer for AC/R Systems

- Restores and maintains the original efficiency of AC/R systems.
- Removes oil fouling.
- Restores heat exchange in refrigeration lines.
- Increases the efficiency of the compressor lubricant without causing chemical changes.
- Extends compressor life and reduces its noise.
- Reduces the maintenance costs of AC/R systems.
- Reduces the energy consumption of the system and CO<sub>2</sub> emissions.
- Does not alter the refrigerant gas.
- Safe for all air conditioning and refrigeration systems.
- Visible when exposed to any UV lamp.
- Compatible with all refrigeration lubricants.
- Compatible with all refrigerant gases, including CFC, HFC, HCFC, R32 and HFO, except R717 (ammonia).
- The professional choice for preventive maintenance.

## A/C Maintenance Kit

### AC/R System Maintenance Kit

The kit contains additives and tools to service air conditioning and refrigeration systems.

Available in different variants, it allows maintenance from a minimum of 32 systems (up to 15 kW or 500 mL of compressor oil) or 16 systems (up to 30 kW or 1 L of compressor oil).

#### The kit contains:

- A tool for inserting 240 mL cartridges into the system (Art.-Nr. IN1032.01 - Easy Gun).
- 1/4 SAE adapter (Art.-Nr. TB5203.01).
- 5/16 SAE adapter (Art.-Nr. TB5204.01).

## Super-Dry Ultra

### Anti-moisture Additive

- Permanently eliminates moisture build-up inside AC/R systems thanks to the special chemical formula that extracts water from the refrigeration lubricant.
- Does not alter refrigerant gases.
- Safe for gaskets and system components, and the compressor.
- Does not weaken the power of the system, nor does it alter its performance.
- Compatible with all refrigeration lubricants.
- Compatible with all refrigerant gases, including CFC, HFC, HCFC, R32 and HFO, except R717 (ammonia).
- The professional choice for preventive maintenance: eliminating moisture, it inhibits acid formation over time.

Art.-Nr.	Adapters included	€			
TR1174.AL.01.S2	No adapters	-	30	5400	5400

#### Dosage:

1 cartridge (6 mL - 0.2 fl oz) for systems up to 21 kW or 700 mL (23.6 fl oz) of compressor oil.

6 mL

## No-Acid Ultra

### Acid Neutraliser Additive

- Eliminates all acid contaminants (caused by the decay of refrigerant gas or lubricant, the interaction between the extra moisture and the lubricant, or the compressor failure) from AC/R systems.
- Prevents compressor breakdown.
- Safe for system components.
- Compatible with all refrigeration lubricants.
- Compatible with all refrigerant gases, including CFC, HFC, HCFC, R32 and HFO, except R717 (ammonia).
- The professional choice for preventive maintenance: it prevents acid from developing over time.

## Antioxidant Ultra

### Antioxidant and Anticorrosive Additive

- Creates a protective barrier on metals such as copper or aluminium, blocking and preventing oxidation and corrosion.
- Does not alter the refrigerant gas.
- Stabilises the refrigerant gas and the refrigeration lubricant.
- Safe for compressor, gaskets and system components.
- Does not weaken the power of the system and does not alter its performance.
- Does not decrease heat exchange.
- Does not accumulate in the moisture filter.
- Compatible with all refrigeration lubricants.
- Compatible with all refrigerant gases, including CFC, HFC, HCFC, R32 and HFO, except R717 (ammonia).

Art.-Nr.	Adapters included	€			
TR1177.AL.01.S2	No adapters	-	30	5400	5400

## Compressor+

### Restoring Additive for Refrigeration Lubricants

- Restores the optimal working conditions of air conditioning and refrigeration systems after replacing the compressor or flushing the circuit.
- Eliminates and neutralises all particles and contaminants that are potentially hazardous to newly flushed system components. These include moisture, heavy flushing fluid residues, and contaminants such as hydrofluoric, hydrochloric, and carbonic acids that develop as a result of the decay of refrigerant gas and lubricant caused by the high temperatures reached by the compressor in case it burns or fails.
- Eliminates the risk of circuit damage after the compressor replacement or circuit flushing.
- Safe for AC/R system components.
- Compatible with all refrigeration lubricants.
- Compatible with all refrigerant gases, including CFC, HFC, HCFC, R32 and HFO, except R717 (ammonia).

Art.-Nr.	Description	€			
TR1162.AL.01.S2	6 mL cartridge	-	30	5400	5400

## Acid-Test

Test to Verify the Presence of Acid in Compressor Oil

- Universal: works with all refrigeration lubricants (POE - ABZ - PAO - PAG - PVE - Mineral).
- Easy to use: just add a few drops of lubricant, shake the bottle and wait a few seconds to see the result.
- Quick result in a few seconds.
- Ideal to perform regular preventive maintenance of the compressor.
- Non-flammable and non-toxic.
- Contains 4 test kits.
- Clear and accurate results. The colour indicates the pH range:

Art.-Nr.	€			
RK1349.S1	-	12	2160	2160

## AC/R Restoring Treatment

Restoring Treatment to permanently repair Refrigerant Gas Leaks of AC/R Systems

- Permanently blocks the development of chemical reactions that would cause leaks, preserving the efficiency of air conditioning or refrigeration systems over time.
- Specifically:
  - eliminates moisture;
  - neutralises acid residues;
  - removes oil fouling;
  - permanently repairs refrigerant gas leaks;
  - restores the original efficiency of the system.
- Compatible with all refrigeration lubricants.
- Compatible with all refrigerant gases, including CFC, HFC, HCFC, R32 and HFO except R717 (ammonia).
- 4 steps: 4 cartridges (24 mL - 0.8 fl oz) for systems up to 21 kW or 700 mL (23.6 fl oz) compressor oil.
- Ideal to perform regular preventive maintenance.
- Recommended for restoring the efficiency of unkept systems.

## Easy-Inject

Tool for injecting Additives into the AC/R System

- Allows additives to be added to AC/R systems using refrigerant gas.
- Pump down not required.
- Eco friendly: re-usable.
- Safe for technicians and systems: check valve included.

Art.-Nr.	Description	€			
IN1030.R1	1/4 SAE	-	15	-	-
IN1031.R1	5/16 SAE	-	15	-	-

6 mL

## Easy-Hose

Tool for inserting additives through AC/R system pressure

Connected directly to the high side port and Easy Inject, Easy Hose enables additives to be injected into AC/R systems without manifolds, but rather using the pressure of the system itself.

Art.-Nr.	Description	€	
TB5164.R2	1/4 SAE	-	01
TB5165.R2	5/16 SAE	-	01

## Easy-Inject + Additives

### Easy-Inject + Extreme Ultra

RK1384	Easy-Inject 1/4 SAE + Extreme Ultra	-	20	-	-
RK1385	Easy-Inject 5/16 SAE + Extreme Ultra	-	20	-	-

### Easy-Inject + Cool-Shot Ultra

Art.-Nr.	Description	€			
RK1404	Easy-Inject 1/4 SAE + Cool-Shot Ultra	-	20	-	-
RK1416	Easy-Inject 5/16 SAE + Cool-Shot Ultra	-	20	-	-

6 mL

## FixQuick

### Ultra-fast Leak Stop

- Ultra-fast: takes just 20 seconds to repair refrigerant gas leaks up to 1 mm.
- Pressure resistance:
  - 20 seconds to fix up to 20 bar (290 psi)
  - 20 minutes to fix up to 50 bar (725 psi)
- Resists up to 250°C (482°F).
- Easy to use: STEP 1 - liquid with brush; STEP 2 - powder.
- Can be used on metal and plastic components.
- Can be applied on flat, curved, horizontal or vertical surfaces.
- Ideal for urgent repairs.
- Ideal for repairs where welding cannot be carried out.
- Permanent result.
- Visible with any UV lamp: it allows you to pinpoint and check the condition of previous repairs.

Art.-Nr.	€			
TR1180.01	-	30	-	-

## External

### Two-component Putty Leak Stop

- Repairs refrigerant gas leaks up to 5 mm.
- Ideal for urgent repairs.
- Perfectly adheres to metal (copper, aluminium, and steel) and rubber components.
- Can be used on thermoplastic pipes.
- Resists refrigeration lubricant (mineral, POE, PAG, PAO and Alkylbenzene).
- Resists refrigerant gases (CFC, HFC, HCFC, CO<sub>2</sub>, including R32 and R1234yf).
- Resists additives and flushing fluids, including chlorinated ones.
- Temperature range use: -100°C to +270°C (-148 °F to 518 °F).
- Can be used on either the high or low side of HVAC/R systems.
- Different pressure resistance depending on the size of the leak:
  - 5 mm = 40 bar (580 psi) - 2 mm = 50 bar (725 psi) - 1 mm = 57 bar (826 psi).
- Easy to use: it can be easily mixed by using two fingers and, once applied, it permanently repairs the leak in 4-5 hours.
- There is no risk of product dispersion in AC/R systems.
- Once dried, it can be easily sanded or removed.

**EXTERNAL P** is the two-component putty leak stop specially formulated for plastic components of air conditioning and refrigeration systems and plumbing applications.

Art.-Nr.	Description	€			
TR1166.01	External	-	60	-	-
TR1172.01	External P	-	60	-	-

## Extreme Ultra White

### Leak Stop for Refrigerators

- It has the same characteristics as Extreme Ultra.
- Specific for compressors of domestic and industrial refrigerators, wine cellars, vending machines, ice cream display cabinets, etc., operating with R600, R290 and R134a.

**Dosage:** 1 dose (6 mL - 0.2 fl oz) per 200 mL (6.7 fl oz) of compressor oil.

#### Cartridge:

Art.-Nr.	Description	€			
TR1176.AL.01.S2	No adapters	-	30	5400	5400
TR1176.AL.H4.S2	1/4 SAE	-	30	5400	5400

**Aerosol Can with Push&Fill System:** Available in three different formats, each compatible with a specific refrigerant: R600, R290 or R134a.

## Detecting Refrigerant Gas Leak in AC/R Systems

## Best Bubbles

### Refrigerant Gas Leak Detector

- Detects micro-leaks on A/C components and refrigerant lines thanks to its high adhesion power to surfaces.
- Quick, ready and easy to use: leaks result in the formation of large, thick bubbles.
- Operating temperature: from -40°C to +80°C (from -40°F to +176°F).
- Also available with directional dispensing trigger (A).
- The aerosol cans can be used even upside down thanks to the special 360° valve.

Art.-Nr.	Description	Quantity	€			
TR1143.K.S1	Best Bubbles	1 L	-	06	576	576

## Best Bubbles Fluo

### Fluorescent Refrigerant Gas Leak Detector

- Detects micro-leaks on AC/R components and refrigerant lines thanks to its high adhesion power to surfaces.
- Quick, ready, and easy to use.
- Operating temperature: from -40°C to +80°C (from -40°F to +176°F).
- Ideal in poor visibility situations. Leaks result in large, thick, and fluorescent bubbles, visible when exposed to any UV lamp.
- Also available with directional dispensing trigger (A).
- The aerosol cans can be used even upside down thanks to the special 360° valve.

Art.-Nr.	Description	Quantity	€

## Brilliant Remover

### Fluorescent UV Dye Remover

- Removes residues of UV dye from surfaces and tools that may have been involved during the leak detection phase.
- Avoids any false leak localisations.
- Does not damage surfaces.

Art.-Nr.	Description	€			
TR1109.01	100 mL spray bottle	-	32	-	-
TR1108.K.S1	1 L spray bottle	-	06	576	576
TR1004.01	400 mL aerosol can	-	12	1248	1404

## Brilliant

### UV Leak Detector Dye for Air Conditioning and Refrigeration Systems

- Quickly and precisely locates refrigerant gas leaks in AC/R systems. Once inserted into the system, the product emerges from the leak and is visible when exposed to any UV lamp.
- Compatible with all lubricants and refrigerant gases including CFC, HFC, HCFC and HFO.
- Does not contain solvents.
- Does not alter the chemical properties of the lubricant and does not damage AC/R systems.
- 1 cartridge (7.5 mL – 0.25 fl oz) per 500 mL (16.9 fl oz) of compressor lubricant.
- Dye detected labels included.

## Flexible Bright Torch

FLEXIBLE BRIGHT TORCH is a 5-LED UV dual-head lamp with a flexible probe that allows identifying refrigerant gas leaks even in the most difficult to illuminate spots. Mount the UV head directly on the lamp or via the probe.

### Technical features:

- Power supply: 3 x 1.5 V "AA" batteries. ■ UV protective goggles included.
- LED wavelength: 385 - 380 nm. ■ 5 white LED head. ■ Aluminium body. ■ Clamshell.

Art.-Nr.	€	
RK1267	-	05

## Wire Bright Torch

WIRE BRIGHT TORCH is an UV lamp 100W-12V that allows identifying refrigerant gas leaks.

### Technical features:

- Power supply: 12 V. ■ UV protective goggles included. ■ LED wavelength: 410 - 405 nm.
- Plastic body.

Art.-Nr.	€	
RK1231	-	01

## High Bright Torch

HIGH BRIGHT TORCH is a 1-LED UV - 3W lamp to identify refrigerant gas leaks.

### Technical features:

- Power supply: 3 x 1.5 V "C" batteries. ■ UV protective goggles included.
- LED wavelength: 410 - 405 nm. ■ Aluminium body. ■ Clamshell.

Art.-Nr.	€	
RK1269	-	05

## Adjustable Focus Bright Torch

ADJUSTABLE FOCUS BRIGHT TORCH is a 1-LED UV - 3W lamp to identify refrigerant gas leaks.

### Technical features:

- Power supply: 2 x 1.5 V "C" batteries. ■ UV protective goggles included.
- LED wavelength: 410 - 405 nm. ■ Aluminium body. ■ Case.

Art.-Nr.	€	
RK1294	-	01

## Mini Bright Torch

MINI BRIGHT TORCH is a 9-LED UV lamp to identify refrigerant gas leaks.

### Technical features:

- Power supply: 3 x 1.5 V "AAA" batteries. ■ UV protective goggles included.
- LED wavelength: 410 - 405 nm. ■ Aluminium body. ■ Clamshell.

Art.-Nr.	€	
RK1230	-	14

## UV Protective Goggles

These goggles are glasses that protect the eyes from UV radiation and must be worn when using any UV lamp to identify leaks. Their yellow colour will make the fluorescence of the UV dye even more visible.

### Technical features:

Complies with EN166:2001 and EN170:2002.

Art.-Nr.	€	
UV1002.01	-	01

## Leak Finder

The Kit contains:

- UV leak detector dye (250 mL bottle with dispenser).
- UV dye remover (100 mL spray bottle).
- Refillable 50 mL cartridge injector.
- R134a adapter (low pressure charging port) with 120 mm flex hose.
- 1/4 SAE and 5/16 SAE adapters with 120 mm flex hose.
- 9-Led UV lamp.
- UV goggles.
- 33 dye detection labels.

Art.-Nr.	Description	€	☑	☑
RK1312	Yellow UV leak detector dye (Brilliant)	-	01	-
RK1307	Green UV leak detector dye (Green Brilliant)	-	01	-

## Fast Leak Finder

The Kit contains:

- UV leak detector dye (12 x 7.5 mL cartridges).
- UV dye remover (400 mL spray bottle).
- R134a adapter (low pressure charging port) with 120 mm flex hose.
- 1/4 SAE and 5/16 SAE adapters with 120 mm flex hose.
- 9-Led UV lamp.
- UV goggles.
- 12 dye detection labels.

## N<sub>2</sub>H<sub>2</sub> Electronic Leak Detector

N<sub>2</sub>H<sub>2</sub> ELECTRONIC LEAK DETECTOR is an electronic device designed to detect a 5% hydrogen (H<sub>2</sub>) + 95% nitrogen (N<sub>2</sub>) gas mixture and the following refrigerant gases: R134a - R410a - R407c - R1234yf - R32 - R404a - R502 - R600 - R290. This leak detector is equipped with a heated sensor and a microprocessor that guarantee an accurate and very precise signal. Thanks to the 3 sensitivity levels and the 7 LED three-colour visual display, this leak detector can guarantee the detection of leaks up to 5ppm (2gr/year).

### Technical features:

- Semiconductor heated sensor.
- 40 cm stainless flexible probe.
- Operating temperature: from 0°C to 40°C.
- 3 sensitivity levels.
- Leak detection indicator with 7 LED three-colour visual scale.
- Detectable refrigerant gases:  
R134a - R1234yf - R410a - R404a - R407c - R32 - R502 - R600 - R290.
- Compliant with SAE J1627 CE.
- Power source: 2 x C size alkaline batteries.
- Power supply: 3,3 V / 0,5 A.
- Plastic case (22,2 x 6,6 x 5,1 cm).
- Weight: 418 gr (battery included).

## N<sub>2</sub>H<sub>2</sub> Pressure Kit HVAC/R

N<sub>2</sub>H<sub>2</sub> PRESSURE KIT is a kit to detect leaks in air conditioning and refrigeration systems under pressure with nitrogen/hydrogen gas mixture (N<sub>2</sub>H<sub>2</sub>).

The kit includes:

- Gas pressure regulator (0-60 bar) compliant with EN ISO 2503 186588.
- 2 m charging hose SAE J2196/J2888 with ball valve with 1/4 SAE swivel connection.
- Black 1/4 SAE gauge with 15 cm hose and ball valve with gauge (Class 1.0) in scale sectors refrigerant gases R134a/R1234yf/R32/R410a/R404a/R407c/R422/R507/R22 and nitrogen/hydrogen mixture (N<sub>2</sub>H<sub>2</sub>).
- Green 5/16 SAE gauge with 15 cm hose and ball valve with gauge (Class 1.0) in scale sectors refrigerant gases R134a/R1234yf/R32/R410a/R404a/R407c/R422/R507/R22 and nitrogen/hydrogen mixture (N<sub>2</sub>H<sub>2</sub>).
- Disposable N<sub>2</sub>H<sub>2</sub> cylinder 950cc - 110 bar.
- Adapter for disposable cylinder (M10x1 - W21,80 RHE).
- Storage and transport plastic case (44,7 x 41,2 x 10,7 cm).

## N<sub>2</sub>H<sub>2</sub> Detection Kit HVAC/R

N<sub>2</sub>H<sub>2</sub> DETECTION KIT is a kit to detect leaks up to 5ppm (2gr/year) in air conditioning and refrigeration systems under pressure with nitrogen/hydrogen gas mixture (N<sub>2</sub>H<sub>2</sub>). The electronic leak detector is also able to detect the following refrigerant gases R134a - R410a - R407c - R1234yf - R32 - R404a - R502 - R600 - R290.

### Technical features:

- Semiconductor heated sensor. ■ 40 cm stainless flexible probe. ■ Operating temperature: from 0°C to 40°C. ■ 3 sensitivity levels. ■ Leak detection indicator with 7 LED three-colour visual scale. ■ Detectable refrigerant gases: R134a - R1234yf - R410a - R404a - R407c - R32 - R502 - R600 - R290. ■ Compliant with SAE J1627 CE. ■ Power source: 2 x C size alkaline batteries. ■ Power supply: 3,3 V / 0,5 A.

The kit includes:

- Gas pressure regulator (0-60 bar) compliant with EN ISO 2503 186588.
- 2 m charging hose SAE J2196/J2888 with ball valve with 1/4 SAE swivel connection.
- Black 1/4 SAE gauge with 15 cm hose and ball valve with gauge (Class 1.0) in scale sectors refrigerant gases R134a/R1234yf/R32/R410a/R404a R407c/R422/R507/R22 and nitrogen/hydrogen mixture (N<sub>2</sub>H<sub>2</sub>).
- Green 5/16 SAE gauge with 15 cm hose and ball valve with gauge (Class 1.0) in scale sectors refrigerant gases R134a/R1234yf/R32/R410a/R404a R407c/R422/R507/R22 and nitrogen/hydrogen mixture (N<sub>2</sub>H<sub>2</sub>).
- Disposable N<sub>2</sub>H<sub>2</sub> cylinder 950cc - 110 bar and adapter (M10x1 - W21.80 RH).
- Electronic leak detector.
- Plastic case (44,7 x 41,2 x 10,7 cm).

## R744 (CO<sub>2</sub>) Electronic Leak Detector

R744 (CO<sub>2</sub>) ELECTRONIC LEAK DETECTOR is an electronic device designed to detect R744 (CO<sub>2</sub>). The leak detector is equipped with a microprocessor that guarantees an accurate and very precise signal. Thanks to the 3 sensitivity levels and the multi-colour visual display this leak detector can guarantee the detection of leaks up to 5gr/year.

### Technical features:

- Semiconductor sensor.
- 40 cm stainless flexible probe.
- Operating temperature: from 0°C to 40°C.
- 3 sensitivity levels.
- Leak detection indicator: multi-colour visual display.
- Detectable refrigerant gas: R7444 (CO<sub>2</sub>).
- Power source: 1 rechargeable 3.7 Vdc lithium battery.
- Power supply: 5.0 V / 1.0 A.
- Plastic case (22,4 x 7,1 x 5,4 cm).
- Weight: 416 gr (battery included).
- Auto-off: 10 minutes.

Art.-Nr.	€		
RK1456	-	01	-

## N<sub>2</sub> Pressure Kit HVAC/R

N<sub>2</sub> PRESSURE KIT is a kit to detect leaks in air conditioning and refrigeration systems under pressure with nitrogen (N<sub>2</sub>).

The kit includes:

- Gas pressure regulator (0-60 bar) compliant with EN ISO 2503 186588.
- 2 m charging hose SAE J2196/J2888 with ball valve with 1/4 SAE swivel connection.
- Black 1/4 SAE gauge with 15 cm hose and ball valve with gauge (Class 1.0) in scale sectors refrigerant gases R134a/R1234yf/R32/R410a/R404a/R407c/R422/R507/R22 and nitrogen (N<sub>2</sub>).
- Green 5/16 SAE gauge with 15 cm hose and ball valve with gauge (Class 1.0) in scale sectors refrigerant gases R134a/R1234yf/R32/R410a/R404a/R407c/R422/R507/R22 and nitrogen (N<sub>2</sub>).
- Disposable N<sub>2</sub> cylinder 950cc - 110 bar.
- Adapter for disposable cylinder (M10x1 - W21,80 RHE).
- Storage and transport plastic case (44,7 x 41,2 x 10,7 cm).

Art.-Nr.	Description	€

## AC/R Systems Pressure Regulator & Tester

**Pressure regulator technical features:**

- Inlet pressure: max 200 bar.
- Outlet pressure: max 60 bar.
- 1/4 SAE male fitting.

The kit includes:

- 200 cm hose with 1/4 SAE ball valve.
- Ø 80 mm gauge with defined sectors and 1/4 SAE fitting.
- Adapter: 1/4 SAE male x 5/16 SAE female.

Art.-Nr.	Description	€		
RK1432.IT	W21,7 x 1"1/4 - UNI 4409 (IT)	-	01	-
RK1433.DE	W24,32 x 1"1/4 - DIN477 nr. 10 (DE)	-	01	-
RK1434.UK	G5/8" - BS 341 nr. 3 (UK)	-	01	-
RK1435.FR	Ø 21,7 x 1,814 - NF E 29-650/c (FR)	-	01	-

### Leak Testing Gauges

- Ball valve with 1/4 SAE male fitting.
- Pressure gauge Ø 80 mm, class 1.0 with defined sectors, positioning indicator and adjusting screw.
- Black or green rubber protective shell.

Art.-Nr.	Description	€		
MN1062.01	1/4 SAE fitting	-	01	-
MN1063.01	5/16 SAE (R410a/R32) fitting	-	01	-

## □ R744 (CO<sub>2</sub>) Pressure Regulator

### Technical features:

- Inlet pressure: max 300 bar.
- Outlet pressure: max 200 bar.
- 1/4 SAE male fitting.

Art.-Nr.	Description	€		
MN1125.01	Joint W21,7 x 1"1/4 - UNI 4409 (IT)	-	01	-

## □ Nitrogen Pressure Regulator

### Technical features:

- Inlet pressure: max 200 bar.
- Outlet pressure: max 60 bar.
- 1/4 SAE male fitting.

Art.-Nr.	Description	€		
RK1325.IT	Connection W21,7 x 1"1/4 - UNI 4409 (IT)	-	01	-

RK1282.FR	Connection Ø 21,7 x 1,814 - NF E 29-650/c (FR)	-	01	-

## □ Nitrogen Pressure Regulator for Mini Cylinders

It is a pressure regulator for mini cylinders that contain nitrogen or nitrogen/hydrogen.

### Technical features:

- Inlet pressure: max 110 bar.
- Outlet pressure: max 10 bar.
- Hose length: 200 cm.
- Fitting: 1/4 SAE swivel ball valve.

Art.-Nr.	€		
MN1020.01	-	01	-

## □ N<sub>2</sub> (Nitrogen) and N<sub>2</sub>H<sub>2</sub> (Nitrogen-Hydrogen) Cylinder

Disposable cylinders filled to a pressure of 110 bar.

## POE Lubricants

ERRECOM's synthetic polyolester (POE) refrigeration lubricants are characterised by high thermal, chemical and hydrolytic stability. Due to their good miscibility, POE lubricants are compatible with all chlorine-free refrigerants, FC refrigerants, and with HFC refrigerants such as R134a, R404a, R507, R410a, R407c. ERRECOM's POE lubricants can also be used with hydrocarbon refrigerants such as propane (R290) and propylene (R1270).

Furthermore, their use has already been successfully tested with low-GWP refrigerants such as HFOs (e.g. R1234yf, R1234ze). Lastly, ERRECOM's POEs have also been tested with new refrigerants designed to replace R22, such as R422a/D and R417a. Our POE lubricants are recommended for use in hermetic, semi-hermetic and open compressors as well as screw compressors and turbochargers (depending on viscosity).

Due to their high viscosity indices, ERRECOM POEs have excellent cold flow properties and a highly stable lubricating film under high-temperature conditions in hydrocarbon applications. ERRECOM's POE lubricants are characterised by high stability and excellent lubrication. POEs are hygroscopic, which means that they tend to absorb water more quickly than non-polar hydrocarbon-based refrigeration oils such as mineral ones, alkyl benzene and PAO. Precisely for this reason, all ERRECOM POEs are ultra-dry and filled in plastic bottles and metal tanks specially designed to ensure protection against moisture.

# Refrigeration Lubricants

The Montreal Protocol bans CFCs and HCFCs aiming to protect the ozone layer while the Kyoto Protocol aims to reduce greenhouse gases and, thus, global warming. F-Gas II, on the other hand, aims to progressively reduce the use of HFCs and high GWP (global warming potential) refrigerants. These laws encourage the use of R744 (CO<sub>2</sub>).

## CO<sub>2</sub> - POE Lubricants

Carbon dioxide (R744) has been used as a refrigerant since the last century with the introduction of industrial refrigeration systems. R744 has excellent thermodynamic properties and is an environmentally friendly refrigerant (with the lowest GWP and ODP). Its use has grown as it is not only a natural refrigerant but also extremely effective, both in specially designed industrial systems such as supermarket refrigerators and heat pump water heaters. Errecom's CO<sub>2</sub> - POE lubricants are high-performance polyol ester-based synthetic lubricants specially developed for CO<sub>2</sub> applications. CO<sub>2</sub> - POEs are available in 5 different viscosity grades to meet the requirements of a full range of R744 systems. They are characterised by good miscibility, fluidity, and stability. Thanks to their branched molecular structure and the high-performance additive package included in the formulation, they also provide good lubrication with better overall performance than classic POEs over a wide temperature range.

More precisely, Errecom's CO<sub>2</sub> - POE lubricants contain excellent additive packages (anti-oxidants, anti-corrosives, anti-foaming) carefully selected to: optimise miscibility with CO<sub>2</sub>, thus increasing heat exchange even in the low-temperature zone;

- reduce the formation of foam, usually present at compressor start-up;
- increase its lubricating capacity;
- protect against materials, even under extreme operating conditions.

They are also characterised by low toxicity and high biodegradability.

CO<sub>2</sub> - POEs can be used for both subcritical (e.g. low-temperature cooling stages in supermarket cascade refrigeration systems) and transcritical (e.g. medium-temperature cooling stages in supermarkets) applications.

## CO<sub>2</sub> - PAG Lubricants

Carbon dioxide (R744) is the natural refrigerant identified as the future ozone-friendly technology. In the last years, the sector has recorded impressive technological development in CO<sub>2</sub>-based systems for commercial and industrial applications, especially as far as it concerns CO<sub>2</sub> refrigeration and heat pumps. CO<sub>2</sub> - PAG lubricants are composed of innovative double-end-capped polyalkylene glycols specially designed to operate under high pressure and high-temperature conditions typical of CO<sub>2</sub>.

They provide highly efficient lubrication for CO<sub>2</sub> compressors and optimised miscibility with the refrigerant to ensure wear protection even at the highest levels of CO<sub>2</sub> dilution, where alternative lubricants such as PAO or ABZ can reveal hydrodynamic lubrication loss.

Errecom's CO<sub>2</sub> - PAGs are OEM-approved for commercial and industrial refrigeration systems working with CO<sub>2</sub> and are available in different viscosities (between ISO 46-100).

CO<sub>2</sub> - PAGs are characterised by:

- double-end-capped technology with optimised miscibility with CO<sub>2</sub>: it maximises the oil return to the compressor to ensure full system efficiency, without loss of hydrodynamic or lubrication properties;
- excellent lubricating properties even under extreme pressure and high-temperature conditions;
- high-performance additives: they ensure excellent thermal, chemical and hydrolytic stability, and reduce downtime and maintenance costs;
- low hygroscopicity: it ensures lower water absorption than alternative R744 technologies (POE, PAO, Alkylbenzenes);
- compatibility with metal and plastic components: it ensures optimised system's stability and durability;
- high viscosity index and low pour point: they guarantee the full efficiency of the system and excellent lubricating properties even under extreme pressure.

## HC - PAG Lubricants

HC - PAG lubricants are blends of polyalkylene glycols chosen among the best-performing and most innovative organic molecules on the market. In addition to the double-end-capped technology, they are characterised by excellent additive packages. The additives contained in HC - PAGs, regardless of their viscosity, make it possible to:

- increase lubricity
- improve chemical stability
- reduce hygroscopicity
- increase the anti-wear and anti-corrosion protection
- ensure high solubility and miscibility.

Over time, PAG lubricants, which have originally been developed for automotive applications, have also proved excellent for use with natural refrigerants, such as anhydrous ammonia, propane, and butane.

HC - PAGs are characterised by:

- insoluble base in water: ensures high lubrication performance in HVAC/R compressors;
- high viscosity index: ensures excellent lubrication, low wear and excellent performance at extreme pressures;
- specific additives for HVAC/R applications: provides excellent thermal conductivity and protection against oxidation and corrosion;

Physical Quantity Measured (Unit of Measurement)	Analytical Reference Method	HC - PAG 68	HC - PAG 100	HC - PAG 150
ISO VG	-	68	100	150
Kinematic Viscosity @ 40°C (cSt)	ASTM-D445	68	100	150
Kinematic Viscosity @ 100°C (cSt)	ASTM-D445	12,4	18,5	25
Viscosity Index	ASTM-D2270	181	202	200
Pour Point (°C)	ASTM-D97	-40	-45	-40
Flash Point (°C)	ASTM-D93	215	228	230
Density @ 15°C (g/cm³)	ASTM-D1298	0,999	0,994	1,005
Moisture Level (ppm)	ASTM-D6304	300	300	300
Total Acid (mg KOH/g)	ASTM-D974	0,05	0,05	0,05

- high flash point for safe use even at high temperatures;
- double-end-capped technology: ensures low hygroscopicity, high chemical and thermal stability and optimised miscibility with refrigerant gases;
- biodegradable and safe for humans and the environment.

ERRECOM's mineral oils are highly refined hydrotreated naphthenic bases enhanced by additives that ensure:

- high ageing stability,
- low pour point,
- excellent low-temperature behaviour,
- good compatibility with ammonia (NH<sub>3</sub>), HCFCs (e.g. R22), hydrocarbons (e.g. propane R290, propylene R1270).

The high solvent power and excellent low-temperature properties lead to good floc points for the refrigerant-oil mixture.

As it is wax-free, ERRECOM's mineral oil has a low pour point and good cold pour properties.

At high temperatures, ERRECOM's mineral oil has a higher flash point than other products on the market and high thermal and chemical stability. It does not corrode iron, copper, and aluminium.

## Vacuum Pump Oil

ERRECOM's Vacuum Pump Oils are blends of carefully selected mineral oils with low vapour pressure and a tight distillation range to ensure the best performance in terms of lubrication of vacuum pumps, including rotary vane pumps.

### The main features of Errecom's mineral oils are:

- high thermal stability: it can be used in closed systems operating even at high temperatures and high pressures avoiding the growth of deposits and sludge;
- high oxidation stability: it extends the charge in operation, thus preventing the viscosity of the product from increasing too early;
- high hydrolytic stability: it protects the oil from decomposition, even in the presence of small percentages of water;
- good demulsibility: it quickly separates oil from the water that may have entered the system, further inhibiting the oxidation process;
- higher filterability even in the presence of water (compared to previous lubricants): it avoids clogging of the filters and extends filter replacement intervals;
- anti-corrosion and anti-rust power: it protects all metal components of the system;
- anti-foam properties: avoids the formation/presence of foam and therefore of air that would reduce the system's efficiency due to the compressibility different from that of oil.

Physical Quantity Measured (Unit of Measurement)	Analytical Reference Method	ISO 32	ISO 46	ISO 68	HIGH VISCOSITY ISO 46 HD

## Oil Charging Pumps

Oil charging pumps facilitate the oil loading into the compressor of refrigeration systems by transferring it directly from the container, thus eliminating the risk of contamination with air and humidity.

- Fits the size of each container.
- Capacity per shot: 50 mL.
- 1/4" SAE Male thread.
- Maximum output pressure: 10 bar (145 psi).
- Length of closed pump: 41 cm.
- Hose length supplied: 150 cm 1/4 SAE x 1/4 SAE.

Art.-Nr.	€	
PM1012.01	-	01

- Can be used with 10-20-25 L containers.
- Compatible with all types of refrigerant gases.
- Capacity per shot: 75 mL.
- 3/8" or 1/4" SAE Male thread (reduction included).
- Maximum output pressure: 17 bar (250 psi).
- Hose length: 150 cm 1/4 SAE x 1/4 SAE.

Art.-Nr.	€	
PM1013.01	-	01

## POE ↔ PAG Id

Test to Verify the Type of Refrigeration Lubricant circulating inside an AC/R System (POE or PAG)

- Recommended when performing maintenance on AC/R systems whose refrigeration lubricant is unknown.
- Works with all POE and PAG lubricants.
- Easy to use.
- Quick and accurate results in a few seconds:
  - clear-looking mixture indicates PAG;
  - murky-looking mixture indicates POE.
- Contains 4 tests.

Art.-Nr.	€			
RK1411.S1	-	12	2160	2160

## Oil Test

Test for checking the Type of Refrigeration Lubricant inside an AC/R System

- Recommended when performing maintenance on AC/R systems whose refrigeration lubricant is unknown.
- Works with all POE, ABZ and mineral oils.
- Saves time and money by avoiding laboratory tests or the use of a refractometer.
- Avoids making the common and expensive mistake of mixing POE lubricant with mineral oils.
- Provides reliable results in just a few seconds.
- Compatible with all types of refrigerant gases.
- Contains 2 tests.

Art.-Nr.	€			
RK1055.S1	-	12	2160	2160

**Flushing**  
of Refrigerant Lines and AC/R Components

## Flushing Test

Test to Verify the Proper Cleaning of Condensers, Evaporators and Refrigerant Lines

- Certifies the proper cleaning of condensers, evaporators, and refrigerant lines.
- Detects contaminants (moisture, acidity, rust, metal filings, dust, and sand) in AC/R system components and pipes.
- Clear and instant result: if the colour changes, the system is not clean; if the colour does not change, you can start the system.

Art.-Nr.	Description	€

**PATENT  
PENDING**

If the colour changes, flush the system.

If the colour doesn't change, start the system.

## Belnet

Quick Evaporating Flushing Fluid

- Evaporates quickly and completely and does not leave residues.
- Removes old oil, debris, and contaminants.
- Safe for all air conditioning and refrigeration systems.
- Requires manual or pneumatic systems for insertion.
- Flammable.

Art.-Nr.	Description	€			
TR1009.01	1 L metal bottle	-	12	672	768
TR1055.01	5 L metal tank	-	02	168	196

### Belnet Aerosol

- Ideal for cleaning small refrigeration lines.
- Ready to use.
- High flushing pressure (8 bar/116 psi).
- Constant pressure until the cylinder is completely empty.
- Does not require additional equipment for insertion.

## Top Flush

### Flushing Fluid Alternative to Decafluoropentane

- Green and non-flammable formulation (hydrocarbon-based): zero ODP (ozone-depleting potential) and low GWP (global warming potential).
- Evaporates quickly and completely and does not leave residues.
- Low boiling point and high volatility.
- Removes particles and dust.
- High degreasing power.
- Removes even residual water trapped in the thinnest cracks.
- Effective even after numerous boiling cycles.
- Low surface tension.
- Excellent chemical and thermal stability, and low viscosity.
- Safe for all air conditioning and refrigeration systems.
- Requires manual or pneumatic systems for insertion.

Art.-Nr.	Description	€			
TR1184.K.01	1 L metal bottle	-	12	672	768

## Alpha Flush

### Fluid for Automatic Flushing Units

- Removes old oil, debris, and contaminants.
- Any residues are compatible with all refrigerant gases.
- Non-flammable.
- No ADR.
- Safe for all automatic flushing units.

Art.-Nr.	Description	€			
TR1142.K.01	1 L metal bottle	-	12	672	768
TR1142.P.01	5 L metal tank	-	02	168	196

## Easy Flush

### Flushing Unit for AC/R Systems with Electric Pump

EASY FLUSH is a flushing unit for AC/R systems with a manually controlled electric pump. It allows flushing the circuit clockwise and anticlockwise.

#### Technical features:

- Power supply: 230/240 V - 50/60 Hz.
- 20 L internal tank.
- Pump capacity: 14 L/min.
- Pump power: 0,75 Kw.
- Max pump pressure: 0,45 MPa.
- Mechanical seal pump with EPDM gaskets.
- Mechanical suction filter.
- Connection for external nitrogen cylinder.
- External taps to reverse the flushing cycle without disconnecting the hoses.
- 3 m flexible hoses with 1/4 SAE ball valves.
- Adapter kit for connecting to AC/R systems.
- Interchangeable fittings: 1/4 SAE - 3/8 SAE - 1/2 SAE (2 pieces each).
- Weight: 20Kg. Built-in cart.

#### CAUTION!

Use this flushing unit exclusively with Alpha Flush (p.32).

Art.-Nr.	€	
VP1027.01	-	01

## Flush Pump

Electric Pump to Flush A/C Systems

FLUSH PUMP is a cost-effective flushing system for large air-conditioning systems.

### Technical Features:

- Power supply: 230/240 V – 50/60 Hz.
- Pump capacity: 14 L/min. Maximum pump power: 0.75 kW.
- Maximum pump pressure: 0.45 MPa.
- Mechanical seal pump with EPDM gaskets.
- 2.5 m flexible hoses with female 1/4 SAE connections.
- Interchangeable connections: 1/4 SAE -3/8 SAE- 1/2 SAE (2 pcs each).
- Storage and travel case.

Art.-Nr.	€	
VP1028.01	-	01

## Fast Flush Kit

### Universal Cleaning and Flushing Kit

#### The kit includes:

- Belnet Aerosol can with thread.
- Flush Gun with hose and ball valve.
- Disposable nitrogen cylinder 950cc. Mini pressure reducer 0÷10 bar.
- Adapter for 1/4 SAE swivel hose.
- Quick coupler BP R134a. 1/4 SAE M x 5/16 SAE F 90° adapter.
- Transport plastic case.

Art.-Nr.	€	
RK1078	-	01

## Flushing Gun

Affordable equipment for flushing AC/R systems.

- Volume: 0,75 L.
- Ball valve with 1/4" female fitting.
- Hose length: 60 cm.
- 0÷12 bar gauge.
- 10 bar safety valve.

Art.-Nr.	Description	€	
RP1027.01	Flushing gun	-	01
MN1127.01	Spare gauge	-	01
RP1069.01	Spare flushing gun	-	01
RP1072.01	Spare ball valve	-	01

## Flushing Kit

### The kit includes:

- Tank with flushing gun.
- Adapter kit for connecting to AC/R systems.
- 10-litre tank for recovery of contaminated liquid.
- Storage and transport plastic case.

Art.-Nr.	€	
RK1088.01	-	01

## Flushing Adapter Kit

These are universal adapters with 1/4 SAE male fitting that allow connection to any components of an AC/R system so that the flushing process can be carried out safely

Art.-Nr.	Description	€	
RK1332	Adapter kit	-	01
RP1051.01	Spare cone	-	01

## Easy Pass

### Adapter Connection Kit for HVAC/R Equipment

EASY PASS is a kit for the quick connection of two refrigeration hoses to enable complete flushing.

Art.-Nr.	€	
RK1343	-	01

## Flushing Hook

### Flushing Gun Hook

Tool to connect the flushing equipment to the A/C system. Its small size facilitates the connection to A/C systems even in narrow spaces.

### Technical features:

- male connection 1/4" SAE.
- size: 80 x 50 mm.

Art.-Nr.	€	
RP1081.01	-	01

**Cleaning and Maintenance**  
of Indoor Units

## Ceiling Mounted Air Conditioner Cleaning Cover

- Ensures deep protection of the area around the evaporator and floors.
- Strong metal frame: easy to assemble.
- Suitable for ceiling mounted units of any size.

Art.-Nr.	Description	€		
PM1010.01	Ceily	-	01	-
PM1011.01	Spare recovery bag	-	01	-

## Air Conditioner Cleaning Cover

- Ensures complete protection of the area around the evaporator.
- Grants perfect fit for any indoor units thanks to the adjustable elastic drawstring.
- Reusable.

## Condensate Drain Maintenance

Errecom's condensate drain cleaners have been formulated by our in-house chemical laboratory to **remove and prevent** the development of **algae, mucilage, silt, and mould**. Available in liquid, gel or tablet form, regular use is recommended to **prevent air conditioner's condensate drain from clogging**.

### Drizzle Condensate Drain Cleaner

- Removes and prevents the development of algae, mucilage, silt, and mould.
- Prevents air conditioner's condensate drain from clogging.
- Ready to use.
- New design: swan neck spout to simplify the application process.

**Drizzle:** liquid formulation. Lavender scented.

**Drizzle Gel:** gel formulation to perfectly adhere to the air conditioner drain line. Aloe scented.

**Drizzle Enzi:** the enzymatic formulation in gel ensures a long-lasting cleaning and unblocking action. Eco-friendly formulation to ensure deeper cleaning with less chemical. Aloe scented.

## □ NSF Certification

**NSF** (National Science Foundation) is the most accredited independent third-party certification body which, since 1944, tests and certifies products to meet precise international public health and safety standards.

NSF certification:

- ensures that products have been tested and found to meet the required health and safety standards;
- confirms that labelling and claims are truthful and compliant with regulations;
- demonstrates the company's commitment to quality, safety, and compliance with regulations.

Most importantly, NSF certification is not a one-time event but involves regular on-site inspections of manufacturing facilities and random re-testing of products. NSF certification, therefore, guarantees that not only the products but also the company's entire production process meets high standards of safety and reliability.

## □ Indoor Unit Cleaners

Errecom's **evaporator cleaners** are alkaline cleaners developed to **remove** the most stubborn deposits of **organic residues, grease, oil, dust, pollen, and smog** from indoor units. They quickly and effectively degrease the treated surfaces and are particularly indicated for removing dirt settled on coils. They can be diluted with water according to the dilution ratio specified on the product: the higher this ratio, the higher the concentration of active substances contained in the cleaner.

### **Chinook** A/C Filter Cleaner

- Easily removes dust, germs, mould, contaminants, and harmful agents.
- Eliminates the causes of bad odours, leaving a pleasant and long-lasting scent.
- Quick and effective application.
- Ready to use.
- HACCP compliant.

Art.-Nr.	Description	€

## Starlux

### Foamy Cleaner for Air Conditioner Surfaces

- Removes dust, stubborn dirt, grease, and stains.
- Foam formulation to better adhere on both wall-mounted and ceiling cassette air conditioners.
- Can be used on plastic and metal casings.
- Perfect to clean all plastic surfaces.

Art.-Nr.	€			
AB1226.N.01	-	12	1248	1404

400 mL

## No-Age Plus

### Anticorrosive Protective Spray Treatment for A/C Systems

- Sprayed directly on evaporator and condenser coils, it creates a protective film that defends surfaces from contaminants such as salt and smog, preventing metal corrosion.
- Resists moisture, smog, salt, sand, and dust.
- Ideal to use on evaporators and condensers installed in highly oxidising areas (seaside locations, heavily polluted areas) and subject to salt, acid rain, and smog attack.
- Extends the life of indoor and outdoor units.
- Aerosol format to ensure uniform application.

## Foggy Kit

Purifying Interior Treatment with Dry Smoke - 48 Applications

- Includes Kemuri, the smoke machine, and 48 bottles of KIRI, the purifying active substance, which is EN1276, EN14476, EN1650, EN16777, and EN13697 certified.
- Takes only a few minutes to complete the whole purifying treatment.
- Purifies even the most difficult-to-reach surfaces.
- Purifies both surfaces and A/C ducts, restoring the indoor air quality.
- Safe for all surfaces, fabrics, and electronic equipment.
- Does not add additional moisture to the environment.
- Long-lasting purifying protection.

Art.-Nr.	€	
RK1455	-	01

## Kemuri

The Purifying Smoke Machine

- 3 cycles to complete the purifying treatment.
- Cable control. Power supply: 230 V.
- Boiler: 400W. Emission: 10 m<sup>3</sup>/minute (350 ft<sup>3</sup>/ minute).
- Preheating: about 3-5 minutes.
- Liquid consumption: 30 min/200 mL (30 min/6.7 fl oz).
- Liquid tank capacity: 200 mL (6.7 fl oz).
- Size (LxHxD): 120x120x240 mm (4.7x4.7x9.4 in). Weight: 1,4 kg (3 lb).

Art.-Nr.	€	
VP1055.01	-	01

## Kiri

Purifying Active Substance for Kemuri

- EN1276, EN 14476, EN1650, EN16777, EN 13697 certified.
- Registered disinfectant in Germany (Reg. N-108918), Austria, and the UK.
- Powerful purifying action: 1 mL to purify 1 m<sup>3</sup> (0.033 fl oz to purify 35 ft<sup>3</sup>).
- Lemon tree scented.

Art.-Nr.	€	
AB1109.Y.01	-	12

50 mL

## Interior Purifier

Purifying Interior Treatment

- Saturates the environment with purifying molecules thanks to the continuous flow coming out from the total release aerosol can.
- Removes contaminants from surfaces and A/C ducts.
- Does not wet or leave marks. Ventilate the room after the treatment.
- For a complete purifying action, Errecom recommends using first Evaporator Cleaner Foam or Evaporator Cleaner. Registered disinfectant in Germany (N-108928).

## Room Care

Indoor Air Quality Treatment

- Consists of two aerosol cans, EVAPORATOR CLEANER and INTERIOR PURIFIER, which guarantee deep and complete purification of A/C ducts and rooms up to 20 m² (215 ft²).
- Removes dust, allergens, and contaminants from evaporator coils and surfaces.
- Ready and easy to use.
- Does not wet or leave marks.
- Does not require rinsing.
- Ventilate the room after the treatment.
- 7 scents available.

 200 mL

## SaniBact

### Concentrated Virucidal and Bactericidal Disinfectant for Surfaces

- Disinfectant certified in the United Kingdom, Germany, Italy (registration N20145), France, Portugal, Poland, and Israel.
- Highly concentrated disinfectant.
- Dilution: 1:16 to obtain virucidal efficacy - 1:25 to obtain bactericidal efficacy
- Tested against coronavirus.
- Tested against influenza, hepatitis B/C, HIV, ebola, rotavirus, norovirus.
- Tested against bacteria: EN1276 – EN13697.
- Tested against moulds: EN13697.
- Removes viruses, germs, mould, and bacteria from high-touch surfaces.
- Perfect to sanitise hospitals, clinics, schools, gyms, pubs, restaurants, hotels, etc.
- Can be applied both in liquid and foam form thanks to the special trigger.
- Its formulation is based on 3 active substances that work together, making SaniBact a powerful disinfectant, suitable to be used in different circumstances.
- Acts in just 5 minutes.
- Safe for all surfaces: it does not leave aggressive chemical residues.
- HACCP compliant.

## Alkaline Cleaners

Errecom's **condenser cleaners** are alkaline cleaners developed to **remove** the most stubborn deposits of **organic residues, grease, oil, dust, pollen, and smog** from outdoor units. They quickly and effectively degrease the treated surfaces and are particularly indicated for removing dirt settled on coils.

They can be diluted with water according to the dilution ratio specified on the product: the higher this ratio, the higher the concentration of active substances contained in the cleaner.

Avoid contact with varnished surfaces. Rinse the condenser thoroughly after application.

## Alkaline Tabs

### Cleaning Alkaline Tabs for Condensers

- 1 tab (20g) to obtain 5 L of ready-to-use degreaser cleaner.
- Can be used with any water, even the hardest one.
- Recommended for recurring cleaning.
- Releases a pleasant scent.

750 mL

## **Weld+**

### Cleaner and Booster for Welding

- Optimises and reduces welding and soldering time. ■ Ensures excellent welding tight.
- Ensures thorough cleaning of the surfaces to be welded. ■ Leaves a dry, stain-free surface.
- Easy to use. ■ Safe for the operator. ■ Suitable for use on iron, steel, copper, brass, aluminium.
- Also ideal for welding of copper and copper alloys, copper and steel alloys, copper and brass alloys, copper and bronze alloys, copper and stainless steel alloys, brass and stainless steel alloys.

#### STEP 1 – Deoxidizing Cleaner

- Removes oxides caused by the atmosphere (rust) and by welding or heat treatments, calamine from metal and steel, oxide layers and encrustations of any kind from alloys such as copper and brass.
- Pickling action.
- Protects surfaces from oxidation for approx. 90 min.

#### STEP 2 – Protective Neutraliser

- Removes any residues resulting from the application of step 1 and the welding work carried out.
- Prevents the growth of oxides after welding.
- Protects the metal from corrosion by creating a protective film.

Art.-Nr.	€			
TR1194.01	-	12	-	-

## **Stop Heat**

### Heat Blocking Putty for Welding

- Absorbs and stops the heat during welding or soldering, preventing the areas around the point from burning or deforming.
- Compatible and safe also for painted or varnished surfaces.
- Putty formulation: it perfectly adheres without dripping, slipping, or leaving residue.
- Re-usable up to 40 times.
- Easy to use.
- Safe and non-toxic formulation.

Art.-Nr.	Description	€			
TR1173.01	500 gr jar	-	12	-	-

## Protect Gel

### Heat Blocking Gel for Welding

- Protects surrounding surfaces from heat and flame during welding or soldering operations.
- Avoids expensive heat damages by protecting components or materials during welding/soldering.
- Compatible and safe also for painted or varnished surfaces.
- Gel formulation: it perfectly adheres without dripping, staining, or leaving residue.
- Easy to use.
- Safe and non-toxic formulation.

Art.-Nr.	Description	€

## Shield-It

### Protective Barrier Spray for Welding

- Creates a protective barrier on the area during welding operations.
- Prevents drops of filler material from sticking to metals and materials near the welding area.
- Protects surfaces from oxidation and corrosion.
- Simple and easy to use.
- Silicone-free formula.

#### Available in 3 formats:

- Shield-It: solvent-based aerosol formulation;
- Shield-It H<sub>2</sub>O: non-flammable water-based formulation;
- Shield-It CO<sub>2</sub>: non-flammable CO<sub>2</sub>-based formulation.

Art.-Nr.	Description	€			
TR1165.N.01	Shield-It 400 mL aerosol can	-	12	1248	1404
TR1164.N.01	Shield-It H <sub>2</sub> O 400 mL aerosol can	-	12	1248	1404
TR1207.N.01	Shield-It CO <sub>2</sub> 400 mL aerosol can	-	12	1248	1404

## Crack Finder Kit

### Kit to Detect Cracks

Crack Finder Kit accurately detects cracks, flaws, post-weld air holes or porous areas on surfaces.

#### Instructions:

- Thoroughly clean and degrease the surface with CRACK CLEANER.
- Apply a thin layer of CRACK FILLER to the surface and wait for approximately 15/20 minutes.
- Remove CRACK FILLER with CRACK CLEANER.
- Let the surface dry.
- Apply CRACK DETECTOR and wait for a few minutes.
- Red marks will form near the cracks: you can now repair them.

## Smart Tester

### Test for Air Conditioning and Refrigeration Systems

SMART TESTER is an extremely simple and innovative equipment to check and, if necessary, add refrigerant gas in A/C systems without using any other equipment (scale, hoses and manifold gauges).

- Ergonomic handle.
- Plastic case.
- 68 mm Ø gauge.

Art.-Nr.	€	🗑️
MN1091.01	-	01

## Two-stage High Vacuum Pumps

- Capacity: 70 L/min.
- Ultimate vacuum: 0.003 mbar.
- 1/4 SAE male thread.
- Intake solenoid valve.
- Vacuum gauge:  $\varnothing$  80 mm class 1.6.
- Amount of oil: 250 mL.
- Power supply: 220 v/50 hz.
- Size: 315x124x240 mm.
- Weight: 8.6 Kg.

Art.-Nr.	€	
VP1017.01	-	01

## High Vacuum Hose

### High Vacuum Rubber Hose with 3/8 SAE Female Fitting

- Withstands temperatures from -40°C a + 82°C (-40°F to +180°F).
- Standard working pressure: 51 bar (750 psi).
- Burst pressure: 206 bar (3000 psi).
- $\varnothing$  INNER: 8.1 mm (0.32 inch).
- $\varnothing$  OUTER: 13.8 mm (0.545 inch).

Art.-Nr.	Description	€	
TB5196Y	150 cm hose	-	01
TB5197Y	240 cm hose	-	01

## Cork Insulation Tape

Suitable for insulating components from condensation (service ports of outdoor units, refrigeration pipes, fittings and joints). It adheres perfectly to all metals, for use on cold or hot pipes. Also suitable for protecting pipes from vibration and noise. Its protective film allows the operator to perfectly shape the tape to the pipe without getting dirty.

- Length: 7,50 mt.
- Stretching: 100%.
- Operating Temperature: -20°C / +90°C.
- Transparent film for clean application.

Art.-Nr.	€	
TR1015.01	-	10

## Condenser Fin Comb and Straightener

This is a circular tool with 6 segments that straighten evaporator and condenser aluminium fins without damaging them. It can be used with fins of the following sizes: 6/8/10/12/14/15.

Art.-Nr.	€	
RL1010.01	-	01

## Universal Valve Core Removal Tool

Art.-Nr.	€	
RL1001.01	-	01

## Standard Valve Core

Art.-Nr.	€	
RV1001.25	-	01

## Steady

### Adjustable Floor Support for Outdoor Units

- Extremely stable and resistant: ensures quick and safe installation of outdoor units.
- Universal: suitable for all condensing units of all weights and sizes.
- 192 mm base equals the area between corrugated roofing sheets.
- Allows units to be installed even on floors with different inclinations.
- Ideal for installing systems even on sloping surfaces/roofs up to 35°.
- Ready to use: does not require additional supports, is screwed directly to the outdoor unit.
- Available in three colours: White (RAL9016); Grey (RAL9018); Black (RAL9004).

#### Technical features

- Height adjustable from 165 mm to 255 mm; M10 pivot bolt.
- Supports up to 1500 kg
- Can be tilted up to 35°.
- 360° rotation.
- 6 mm anti-vibration rubber base.
- 6 holes floor mounting base.

## Labels

### Pipe Markers and Labels

- Comply with ISO 20560 and CLP Regulation.
- Available in several languages.
- Customisable on request.

NEWS 2023

## SealUp Removable AC/R Joint Sealant

- Creates a flexible but strong seal on the threaded or flanged AC/R fittings, adhering to internal surfaces and filling all micro-cracks.
- Prevents vibration from loosening nuts, joints, bolts, etc.
- Easy to remove.
- Can be applied on all plastics and metals.
- Temperature range use: -90°C to +200°C (-130°F to +392°F).
- Pressure range use: full vacuum and up to 500 bar/7250 psi.
- Resists refrigerant gases, combustible gases, refrigeration lubricants, fuels, solvents, industrial gases.
- Threaded spout for better sealing.

Art.-Nr.	Description	€			
TR1157.Y.01	50 mL tube	-	30	-	-

## Thor Sealant Remover and Surface Cleaner

- Removes sealant residues from surfaces. Ideal for cleaning surfaces before using External and FixQuick.
- Quick cleaning action: works in just a few minutes.

Art.-Nr.	Description	€			
TR1013.J.01	200 mL can	-	24	2880	3168

200 mL

## Ezi Oil Thread Cutting Oil

- Necessary to lubricate copper pipes during flanging.
- Particularly suitable for lubricating drill bits, tap and die sets, reamers and other tools that cut or incise metal.

Art.-Nr.	€			
OL1009.J.01	-	24	2880	3168

200 mL

## **Unlock**

### Unlocking Multi-Purpose Lubricant

- Excellent lubricating power. Ideal to use with rusty or oxidised mechanisms or components.
- Effectively unlocks and loosens nuts, bolts, screws, mechanisms, chains, and locks.
- Protective and waterproof formula: prevents oxidation and corrosion.
- Includes a special cannula to properly deliver the product on the surface.
- Available in both aerosol cans and liquid format.

Art.-Nr.	Description	€			
TR1211.J.01	200 mL aerosol can	-	24	2880	3168
TR1211.N.01	400 mL aerosol can	-	12	1248	1404
TR1211.P.01	5 L tank	-	02	-	-

## **Eco Unlock**

### Eco-Friendly Unlocking Multi-Purpose Lubricant

- Excellent lubricating power: effectively unlocks and loosens locks, chains, cables, mechanisms, bolts, nuts, and screws.
- Ideal to use with rusty or oxidised mechanisms or components.
- Cleans and degreases, removing paint residues, resin, glue, grease, bitumen, and tar.
- Protective and anti-rust action: prevents corrosion and any seizing between metal parts.
- Eco-friendly formula: it contains only natural ingredients. It is a great alternative to petroleum-based lubricants.
- Silicone free.
- Non-flammable.

Art.-Nr.	Description	€			
TR1212.X.01	400 mL aerosol can	-	12	-	-

300 mL

## **Total Unlock**

### Unlocking Protective Lubricant

- Effectively unblocks, protects and lubricates.
- Removes rust and oxidation from surfaces, creating a long-lasting, waterproof protective film.
- Available in both aerosol cans and liquid format.

Art.-Nr.	Description	€			
TR1213.J.01	200 mL aerosol can	-	24	2880	3168
TR1213.N.01	400 mL aerosol can	-	12	1248	1404
TR1213.P.01	5 L tank	-	02	-	-

# Unblocking Lubricants

## **Unlock MoS<sub>2</sub>** Molybdenum Disulphide Lubricant

- The micronised molybdenum disulphide powder creates a lubricating layer on the surface that significantly reduces friction.
- Excellent adhesion power (even under extreme pressure and temperature conditions).
- Creates a protective thin film that prevents oxidation over time.

Art.-Nr.	Description	€			
TR1214.N.01	400 mL aerosol can	-	12	1248	1404

 400 mL

## **Rust-Off** Ice Rust Remover Spray

- Innovative formula: by creating a different thermal expansion between the rust and the substrate, it lubricates and deeply penetrates the surfaces to be treated and freezes them, breaking down rust molecules.
- Acts even on the strongest and the most stratified rust layers.
- Protects surfaces against corrosion, preventing the formation of new rust.

Art.-Nr.	Description	€			
TR1215.N.01	400 mL aerosol can	-	12	1248	1404

 400 mL

## **Universal PTFE** Multi-Purpose Synthetic Lubricant with PTFE

- Excellent adhesion and waterproof power.
- Effectively lubricates electric cables, locks, joints, chains, derailleurs, and tools in general.
- Excellent resistance to seawater.
- Resists extreme temperatures: from -20°C to +170°C (from -4°F to +338°F).

Art.-Nr.	Description	€			
TR1216.N.01	400 mL aerosol can	-	12	1248	1404

 400 mL

## MoS<sub>2</sub> Grease

### Molybdenum Disulphide Grease

- Long-lasting lubricating and anti-friction power.
- Effectively lubricates cables, chains, mechanisms, and bearings.
- Resists moisture, oxidation, and corrosion.
- Resists extreme temperatures: from -20°C to +390°C (from -4°F to +734°F).

Art.-Nr.	Description	€			
TR1217.N.01	400 mL aerosol can	-	12	1248	1404

400 mL

## Navy Grease

### Waterproof Protective Grease

- Waterproof lubricating formulation: perfect to use with components exposed to water.
- Excellent stability, adhesiveness, and resistance even under prolonged extreme conditions.
- Effectively lubricates cables, joints, pivots, clamps, mechanisms, and outboard engines.
- Resists extreme temperatures: from -20°C to +170°C (from -4°F to +338°F). +350°C (+662°F) - in case of dry residues.

Art.-Nr.	Description	€			
TR1218.N.01	400 mL aerosol can	-	12	1248	1404

400 mL

## V-Grease

### Vaseline Grease

- Ideal to lubricate mechanisms and components of air conditioning, refrigeration, and packaging systems.
- Prevents seizing of threaded joints.
- Protects rubber components and chrome-plated parts against acids and weathering.
- Resists from -20°C to +50°C (from -4°F to +122°F).

Art.-Nr.	Description	€			
TR1219.N.01	400 mL aerosol can	-	12	1248	1404

400 mL

# Unblocking Lubricants

## V-Oil

### Vaseline Oil

- Ideal to lubricate mechanisms and seals of air conditioning and refrigeration systems, joints and components that need periodic lubrication.
- Protects treated parts over time.
- Colourless and odourless.

Art.-Nr.	Description	€				
TR1220.N.01	400 mL aerosol can	-	12	1248	1404	

400 mL

## Cable Go

### Cable Lubricant

- Solves friction problems occurring when pulling electric cables.
- Lubricates sheathed cables, telephone cables, fibre optics, and probes, thus facilitating their sliding.
- Protects cables from wearing and ageing.
- Safe for plastic and rubber parts; compatible with all cables.
- **Cable Go - Spray:** Foam formula that lubricates and reduces friction even in the most hidden cracks and bends.
- **Cable Go - Liquid:** Water-based liquid formula with a long-lasting lubricating effect.

Art.-Nr.	Description	€				
TR1221.N.01	Calbe Go - Spray; 400 mL aerosol can	-	12	1248	1404	
TR1221.K.01	Calbe Go - Liquid; 1 L bottle	-	06	576	576	

## Poli Clean

### Polyurethane Foam Cleaner

- Effectively removes hardened adhesives or polyurethane foams.
- Perfect for cleaning the inside and outside of polyurethane foam guns.
- Its use is also indicated before applying silicones, glues, or polyurethane foams to remove residues of oil, grease, soot, tar, and wax from metal surfaces.

Art.-Nr.	Description	€				
TR1222.M.01	500 mL aerosol can	-	12	-	-	

500 mL

## Deoxi Oil

### Waterproof Protective Deoxidiser for Electric Contacts

- Cleans and degreases electric contacts and equipment.
- Creates an oily waterproof dielectric and protective film.
- Protects electric contacts against oxidation and corrosion.

NOTE: Do not spray on turned-on equipment.

Art.-Nr.	Description	€			
TR1225.N.01	400 mL aerosol can	-	12	1248	1404

400 mL

## Deoxi Dry

### Dry Deoxidiser for Electric Contacts

- Ideal to be used both for electric and electronic components.
- Degreases and cleans electric/electronic circuits, restoring their function.
- Effectively deoxidises electric/electronic circuits.
- Evaporates very quickly: leaves no residue.
- NOTE: We recommend testing for material compatibility before using. Do not spray on turned-on equipment.

Art.-Nr.	Description	€			
TR1226.N.01	400 mL aerosol can	-	12	1248	1404

400 mL

## Eco-Deg

### Eco-Friendly Surface Degreaser

- Excellent cleaning and degreasing result: easily removes residues of grease, glue, tar and bitumen.
- Eco-friendly formulation: made with biodegradable fluid synthetic esters (plant-based ingredients).
- Safe for surfaces: does not leave residues.
- Polishing effect on metal surfaces.
- Silicone-free.
- Non-flammable.

Art.-Nr.	Description	€			
TR1227.X.01	300 mL aerosol can	-	12	-	-

300 mL

## Heavy Duty Wipes

Cleaning Wipes for Hands, Tools, and Surfaces

- Effectively removes various types of dirt: oil, lubricant, grease, rust, tar, bitumen, graphite, glues, resins, sealants, paints, inks, dyes, etc.
- Multi-purpose: can be used for cleaning hands, working tools and surfaces.
- Degreasing and antibacterial action. Does not require rinsing.
- Slightly abrasive and very resistant fabric.
- Dermatologically tested. Contains natural solvents.
- Eliminates unpleasant odours, leaving a pleasant citrus scent.
- Contains emollients (lanolin).

Art.-Nr.	Description	€			
TR1228.01	40 wipes	-	06	-	-
TR1229.01	100 wipes	-	04	-	-

## Sticky

Multi-Purpose Adhesive Spray

- High-quality formulation based on thermoplastic elastomers and synthetic resins.
- Perfect to glue metal surfaces, rubber, polyurethane foam, paper, textiles, and wood.
- Includes adjustable valve.

Before use, we recommend cleaning and drying the surface thoroughly and testing its compatibility with STICKY.

Art.-Nr.	Description	€			
TR1230.N.01	400 mL aerosol can	-	12	1248	1404

## Re-Stick

Repositionable Adhesive Spray

- Perfect for temporary solutions: allows to attach and detached glued parts as required.
- Long-lasting quality: it adheres perfectly and remains soft and elastic, even after several applications.
- Does not damage surfaces and leaves no stains.
- Ideal to temporarily glue rubber material, plastic, paper, etc.

Before use, it is recommended to clean and dry the surface thoroughly, making sure to remove grease residues, dust, or dirt. Shake before use and spray at a distance of approx. 30-40 cm.

Art.-Nr.	Description	€			
TR1231.N.01	400 mL aerosol can	-	12	1248	1404

## Smoke Finder

Smoke Detector Spray Test

- Tests that smoke detectors are properly functioning.
- Quick and easy: spray the product into the detector and wait 5/10 minutes. If the device sounds, it works, otherwise it means that the smoke detector is faulty.
- We recommend using it at least twice a year.

Art.-Nr.	Description	€			
TR1232.Q.01	250 mL aerosol can	-	12	-	-

### **Eco Moka**

**Natural and Biodegradable Cleaner for Coffee Machines and Electric Kettles**

- Environmentally friendly and biodegradable: formulated exclusively with natural and high-quality raw materials (lactic acid).
- Food grade formula: contains ingredients certified for direct food contact.
- Highly effective descaler: safely removes limescale, encrustations, and mould from the internal machine components, guaranteeing excellent hygienic conditions and preventing the formation of new encrustations over time.
- Preserves the taste and aroma of coffee.
- Extends the service life of the machine.
- Compatible with all coffee machines and electric kettles.

NEWS 2023

Art.-Nr.	Description	€			
AB1110.M.S1.EC	500 mL bottle	-	-	-	-

## Moka

### Cleaner for Coffee Machines and Electric Kettles

- Highly effective descaling formula.
- Safely removes limescale, residues, and mould from the water tank and coffee machine nozzles.
- Regular use prevents the growth of algae and new encrustations.
- Preserves the taste and aroma of coffee.
- Extends the service life of the machine.
- HACCP compliant.
- NSF certified (A3).

## Greed

### Cleaner for Refrigerated Environments

- Completely and quickly removes food residues, grease, encrustations, and mould from the surfaces of refrigerated environments, including those used for food storage (cold storage rooms, refrigerators, freezers, etc.) or from the drains of cold storage rooms.
- Slows down the growth of new contaminants on surfaces.
- Regular use has a preventive effect.
- Requires rinsing.
- Formulated with tasteless raw materials suitable for indirect food contact.
- Any residual product is non-hazardous, as it is formulated with raw materials that comply with Regulation (EC) 1935/2004 - MOCA.
- HACCP compliant.
- NSF certified (A5).

**RTU**

## SnowPlow

### Ice Machine Cleaner

- Effectively and safely removes limescale, mould, residues, algae, and encrustations from ice machine components (tray, nozzle, coil and drain).
- Does not freeze at normal working temperatures.
- If used regularly, it prevents the growth of algae and encrustations.
- Requires rinsing; it is recommended to remove the first ice cubes produced.
- Formulated with tasteless raw materials suitable for indirect food contact.
- Any residual product is non-hazardous, as it is formulated with raw materials that comply with Regulation (EC) 1935/2004 - MOCA.
- HACCP compliant.
- NSF certified (A1, A3).

## Acid Cleaner for Solar Thermal and Photovoltaic Panels

- Removes from solar panels heavy-duty encrustations such as salt, rust, limestone, concrete and chalk residues and any further inorganic dirt.
- Long-lasting protection.
- Avoid reduction in systems' performance.
- Ready to use.
- Safe: does not leave stains, resists high temperature and UV rays.
- Application temperature = +5 ÷ +25 °C.
- Enhances the cleaning action of Apollo -Errecom's alkaline cleaner for solar panels. Always use Apollo after using Sunlit to neutralise any acidic residues.

Art.-Nr.	Description	€			
AB1254.K.S1	1 L spray bottle - RTU	-	06	576	576

**1:2**  
MAX DILUTION

## Alkaline Cleaner for Solar Thermal and Photovoltaic Panels

- Removes even the heaviest and most stubborn dirt such as dust, debris, scale, etc. from solar panels.
- Once rinsed off, it leaves a protective film on the solar panel that slows down the growth of new deposits and protects it from corrosion.
- Restores and maintains the efficiency of solar panels over time.
- Alkaline-based formula.
- Does not damage surfaces; also safe for plastics.
- Safe for solar panels: it does not affect their performances and does not get absorbed.

## Sprinkle

### Long-lasting Waterproof Treatment

- Once applied to glass, tiles, and mirrors, it forms a protective thin layer that helps prevent water spots, dirt, and scale build-up.
- Ideal for cleaning shower boxes.
- Leaves no marks or residues.
- Quick and easy to apply.
- Gentle formulation: safe for surfaces.

Art.-Nr.	Description	€				
AB1237.K.S1	1 L spray bottle	-	06	576	576	

READY TO USE

**RTU**

## Flow

### Alkaline Drain Cleaner

- Removes food, paper, mould and soap from slow sink drain.
- Eliminates unpleasant odours from sinks and drains.
- Can be used in all types of drains, both metal and plastic.
- Ideal for regular maintenance.

Art.-Nr.	Description	€				
AB1080.K.01	1 L bottle	-	06	-	-	

READY TO USE

**RTU**

## Unclog

### Heavy Duty Drain Cleaner

- Clears blocked sinks and drains dissolving all food, paper, hair, mould, and soap residues that an alkaline product could not remove.
- Eliminates unpleasant odours from sinks and drains.
- Can be used in all types of drains, both metal and plastic.
- Does not corrode metals: it contains anticorrosive agents to limit aggression of the chrome-plated components of the drain.

Art.-Nr.	Description	€				
AB1079.K.01	1 L bottle	-	06	-	-
